

Before the  
**FEDERAL COMMUNICATIONS COMMISSION**  
Washington, D.C. 20554

In the Matter of	)	
	)	
Advanced Television Systems	)	MB Docket No. 87-268
and Their Impact upon the	)	
Existing Television Broadcast Service	)	

To: The Commission

**REPLY COMMENTS OF**  
**COHEN, DIPPELL AND EVERIST, P.C.**

The following reply comments by Cohen, Dippell and Everist, P.C. ("CDE") concerns the Seventh Further Notice of Proposed Rule Making, MB Docket No. 87-268 ("SFNPRM") released October 20, 2006.<sup>1</sup>

CDE is an established engineering firm located in Washington, D.C. and its predecessors have offered professional engineering services to the broadcast and communications industry for over sixty-five (65).

**Allotments**

These reply comments concern an inspection of the Table of Proposed Allotments. It appears certain DTV allotments adopted in a *Report and Order* that are over two years old are not reflected in the proposed table. These allotments have been properly coordinated with the neighboring administration and based on the SFNPRM are fully spaced in accordance with Section 73.623(d).

---

<sup>1</sup>The Commission extended the comment deadline to January 25, 2007, and the Reply Comments deadline to February 26, 2007.

It is urged that the Commission review those new DTV allotments for suitability and have those new DTV allotments declared eligible and reflected in the final table.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Donald G. Everist", written over a horizontal line.

Donald G. Everist
